PRODUCT PROPERTIES / APPLICATION AREA:

ACTIVE PEARLS® is a hand cleanser for the removal of medium dirt. Although the product has a strong cleansing effect, the skin is not affected by abrasive scrubbing agents. According to the pH value of the human skin, the liquid heavy-duty hand cleanser is slightly acidic. The dermatological compatibility of the mild surfactant combination with acyl glutamate in combination with lipid-replenishing glycerol esters is very good. ACTIVE PEARLS® contains the patent-registered dirt removing agent ACTIVE SOFT PEARLS® (ASP), but it does not contain solvents. The soft and smooth pearls made of hydrogenated castor oil (wax) can remove dirt particles without affecting the skin. Furthermore, there are no residues in traps and sewers. ACTIVE PEARLS® is also available as perfume- and fragrance-free version which is HACCP-compliant and can be used safely for personal hygiene in the food industry in consideration of the respective application instructions.

APPLICATION:

Apply ACTIVE PEARLS® evenly on the dry skin. For medium dirt, a small hazelnut-sized amount of the hand cleanser is sufficient. Rinse off with plenty of water afterwards and dry hands thoroughly. A proportional bigger amount of the hand cleanser has to be used in order to remove heavier dirt.
