

Skin Cleansing Liquid Soap

1 When your hands are obviously not dirty, wet them with little water.

2 Apply enough liquid hand wash.

3 Spread and rub thoroughly also between your fingers during approx. 30 seconds.

4 Rinse hands with plenty of water.

5 Dry hands thoroughly, preferably with a single-use towel. Afterwards, use a **skin protection or skin care product**.

Note:

In order to remove germs from your hands, proper hand washing is often sufficient.
