Wall-mounting with 4 screws.
Minimum distance below the photo cell: 28 cm.

Product Information

The E-TOUCH dispensing system offers the following advantages:

- ✓ easy operation
- ✓ ideal dosing
- ✓ good emptying
- ✓ maximal hygiene since there is no direct contact between the product and the dispenser

The dispenser is suitable for the following products:
liquid skin-cleansing products and disinfectants.

The dispenser is easy to load and refills can be exchanged without much effort. The appropriate valve is part of each bottle. Since the valve is replaced with each refill, the products are always dispensed ideally and hygienically.

Dimensions

width: approx. 140 mm, height: approx. 262 mm, depth: approx. 120 mm
Empty weight: approx. 700 g

Packaging

The E-TOUCH dispenser is available as single unit in a cardboard box, incl. wall-mounting material.
Dimensions of the cardboard box: approx. 270 x 130 x 150 mm
For using the touch-free dispenser, 4 batteries (round cell Type AA, LR6 1,5 V) are needed, which are NOT included in the delivery.
